5. New standards, amendments and interpretations to existing standards that are effective for annual periods beginning on or after 1 January 2022

The Company has adopted the new accounting pronouncements which have become effective this year, and are as follows:

Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 Interest Rate Benchmark Reform – Phase 2 effective from 1 January 2021 adopted by the EU

Amendments proposed are such that address issues that might affect financial reporting after the reform of an interest rate benchmark, including its replacement with alternative benchmark rates. Phase 2 of the project dealt with replacement issues, therefore, the amendments published address issues that might affect financial reporting when an existing interest rate benchmark is actually replaced.

Amendments to IFRS 16 Leases: Covid-19- Related Rent Concessions beyond 30 June 2021 effective from 1 April 2021 adopted by the EU

'Covid-19-Related Rent Concessions extends by one year, beyond 30 June 2021, the May 2020 amendment that provides lessees with an exemption from assessing whether a Covid-19-related rent concession is a lease modification. The Changes in Covid-19-Related Rent Concessions beyond 30 June 2021 (Amendment to IFRS 16) amend IFRS 16 to

- permit a lessee to apply the practical expedient regarding COVID-19-related rent concessions to rent concessions for which any reduction in lease payments affects only payments originally due on or before 30 June 2022 (rather than only payments originally due on or before 30 June 2021);
- require a lessee applying the amendment to do so for annual reporting periods beginning on or after 1 April 2021;
- require a lessee applying the amendment to do so retrospectively, recognizing the cumulative effect of initially applying the amendment as an adjustment to the opening balance of retained earnings (or other component of equity, as appropriate) at the beginning of the annual reporting period in which the lessee first applies the amendment;

and specify that, in the reporting period in which a lessee first applies the amendment, a lessee is not required to disclose the information required by paragraph 28(f) of IAS 8.

6. Standards, amendments and interpretations to existing standards that are not yet effective and have not been adopted early by the Company

7. Significant events and transactions

No significant adjusting or non-adjusting events occurred between the date of the separate financial statements and the date of its approval by management on 30 June 2022 for publication, except for the following non-adjusting events:

In connection with the ongoing global pandemic of Covid-19, described in Note 2 to these separate financial statements, the duration of the emergency epidemic situation in Bulgaria was extended until 30 June 2022.

In view of the ongoing coronavirus pandemic, the Company's management is unable to assess the impact of a potential new wave or strain on its future financial condition and performance, but considers that with a fading effect, the potential impact could lead to more -weak volatility of the market and price risk related to the financial assets of the Company and less likelihood of negative effects on its activities. The abolition of the imposed emergency measures and restrictions by the various countries and governments will have a positive effect on economic activity.

On 21 February 2022, by decree of the President of the Russian Federation, the Donetsk People's Republic and the Luhansk People's Republic were recognized as independent states. On 24 February 2022, the Ministry of Defense of the Russian Federation announced a "special military operation" on the territory of the Republic of Ukraine.

The military actions started on the territory of the Republic of Ukraine and the related measures, which were introduced by the countries of the European Union, incl. Bulgaria vis-à-vis Russia (Russian Federation) and reciprocally - create geopolitical, macroeconomic and market tensions, which are expressed in high prices of goods, energy resources, inflation and market fluctuations.

The economic consequences of the military conflict in Ukraine cannot be assessed, but they are already indicating extremely serious effects on the overall global economy. Energy and raw material prices - including wheat and other cereals - have risen sharply, further exacerbating inflationary pressures from supply chain disruptions and the recovery from the Covid-19 pandemic. Price

shocks are expected to have an impact worldwide. If the conflict develops negatively or lasts for a longer period of time, the economic damage will be significant and is expected to affect all sectors of the economy, both Bulgaria and the EU.

As of the date of preparation of this report, a contract has been concluded for finalization of a transaction with a related party for the acquisition of equity instruments registered in the Russian Federation, which requires additional fulfillment of certain conditions to finalized it..

The management of the Company will continue to monitor the potential impact and will take all possible measures to mitigate any potential effects.

The management of the Company has taken a set of organizational measures in order for the Company to meet all restrictions and sanctions imposed on the transfer of funds to and from Russia and / or sanctioned persons and institutions, including activities to increase and strengthen protection against potential malicious acts. and attacks on information resources and infrastructure.
